

LIFE STEAM project was presented to the public for the first time at **Ecomondo**, the international fair for environmental sustainability and the circular economy. The event was held in Rimini from 5 to 8 November, and was a great opportunity to present the project to the thousands of visitors who attend the fair every year.

In conjunction with the fair, LIFE STEAM was presented in Brussels at the **LIFE Welcome Meeting** organized by the Executive Agency for Small and Medium Enterprises of the European Commission (EASME). The event was an excellent opportunity to get to know the other interesting projects from all over Europe that have joined the LIFE programme.

Just two months after its launch, LIFE STEAM is already present on the **web** on multiple channels: Facebook, LinkedIn, Twitter and the following link www.lifesteam.eu
